1920	Jan	19	Transcription of Memorandum dated 19 Jan 1920													
			In view of the fact that these marriage registers are of obsolete pattern and that many years must elapse before they would become filled they are disused at this point													
			by direction of the Registrar General and new Marriage Registers of smaller capacity and of modern pattern have been supplied for future use at the church.													
			S de Fasting?????? Acting Secretary, General Registry Office, London
